

## Change of provider for the multimedia connections in the dormitories of the StW Münster: First information

### Start of the new connection:

Start: 01.01.2022

Provider / Contractual partner:

### Internet connection:

Feeding in the houses: Fibre optic connection (scaling according to dormitory size)

Download speed: up to 300 Mbits

Upload speed: up to 300 Mbits

Provision of the connection: With the start of the tenancy agreement

Reset of the setting: With the end of the tenancy agreement

Router: FritzBox (model 7530)  
- Permanently installed in the rented premises (no more ordering or return shipment by tenant necessary)  
- Property of 1&1 Versatel

WLAN: Can be administered by user himself/herself  
- Assignment of own WLAN name (SSID) visible or not visible for others  
- Allocation of own WLAN password  
- Parental control can be activated  
- Guest management, for visitors, e.g. time-controlled WLAN use  
- Mesh function, e.g. simplified repeater registration

LAN: Connection via network cable is also possible.

### TV reception:

TV reception is provided via an app which is available on the common platforms (Windows, IOS, Android). This app can be installed on the following devices, for example: Tablet, desktop computer, laptop, mobile phone and TV set. If you are unable to use this function in this way, it is possible to rent a receiver.

### Support/ Troubleshooting:

The company Hotzone is responsible for support or troubleshooting on behalf of 1&1 Versatel. Contact will be possible by mail or telephone from 01.01.2022. The contact details will be announced in good time.
